- Linux

LANGUAGE

- Sinhala
- English
- Tamil

PROJECTS

Mind Wave – Student Mental Health App

2025 (Nov) – Present
mindwave-app.com

- A mobile application currently in active development, designed to help students manage stress and academic pressure. The live website has already been deployed and is accessible to users.
- Features include mood and study habit tracking, personalized wellness insights, and an AI-powered chatbot providing friendly, real-time support.
- Led a team of developers, overseeing project planning, feature prioritization, and coordination of design and development efforts.
- Technologies: React Native, AI chatbot frameworks, Node.js for backend developing and Firebase for Data handling storing.

Personal Portfolio Website

2025
[GitHub Repository](#)

- A fully responsive personal website developed independently to showcase academic projects, technical skills, and professional background.
- Designed and implemented a clean, mobile-first layout ensuring seamless compatibility across all screen sizes and devices.
- Technologies: HTML5, CSS3, JavaScript.

Estate-Agent-App | SmartMove Website

2025
[GitHub Repository](#)

- An individual coursework project – a property listing web application for an estate agent brand, showcasing featured properties with details including location, price, and descriptions.
- Solely responsible for the complete front-end UI design, structured layout, and version control using Git and GitHub.
- Technologies: HTML, CSS, JavaScript, Git, GitHub.

Smart Calculator

2024

- A desktop calculator application developed independently as a personal project to deepen proficiency in Python and GUI development.
- Programmed core arithmetic logic and designed a clean, intuitive graphical user interface using Python's Tkinter library.
- Technologies: Python, Tkinter.

REFEREES

Mr. Manul Singhe
